FINAL NOTICE OF VIOLATION

Bonnie Blue
314 North Center St.
Wayne, OH 43466

October 5, 2021

RE: Nuisance Complaint for HSTS at 7301 McCutcheonville Rd. (Montgomery Twp.)

To Whom It May Concern,

PARCEL # L45-412-320000038000

On December 10, 2019, Wood County Health Department received a complaint regarding and illegal septic system at the above referenced property stating that there is raw sewage going in to the East Branch Portage River. We were advised that 7301 ½ was tied into the tank at 7301 McCutcheonville and there were two concrete tiles going to the river with no leach field. 7301 ½ McCutcheonville Rd. now has a new septic system. No record of an existing sewage system for 7301 McCutcheonville is on file at this department, so we are unable to determine the type, age and or size of the septic system that is serving the property.

We sent FOUR NOTICE OF VIOLATION letters to you on December 15, 2019, September 9, 2020, November 19, 2020 and June 4, 2021 requiring replacement of the septic system:

This property will need a new septic system due to failure of the existing septic system, resulting in a public health nuisance as it is discharging raw sewage and there is no secondary treatment system such as a leach field, therefore **making this property UNFIT FOR HUMAN HABITATION** until the septic system failure and public health nuisance is resolved.

According to the Wood County Health, Safety and Sanitation Regulations for Structures and Vacant Lots, Chapter 301.012: Where a structure, building or dwelling that has its plumbing, heating, ventilation, water heating, water supply system, **waste water system**, lighting, or electrical system or any similar system **improperly installed, maintained, or operated in such a manner as to be a hazard to the health and safety of the occupants or the public, it shall be declared unfit for human habitation by the Health Commissioner.**

ORC Chapter 3707.01 Powers of board - abatement of nuisances. The board of health of a city or general health district shall abate and remove all nuisances within its jurisdiction. It may, by order, compel the owners, agents, assignees, occupants, or tenants of any lot, property, building, or structure to abate and remove any nuisance therein, and prosecute

such persons for neglect or refusal to obey such orders.

ORC Chapter 3718.011 Conditions under which sewage treatment system causes a public health nuisance.

(A) For purposes of this chapter, a sewage treatment system is causing a public health nuisance if any of the following situations occurs and, after notice by a board of health to the applicable property owner, timely repairs are not made to that system to eliminate the situation:

(1) The sewage treatment system is not operating properly due to a missing component, incorrect settings, or a mechanical or electrical failure.

(2) There is a blockage in a known sewage treatment system component or pipe that causes a backup of sewage or effluent affecting the treatment process or inhibiting proper plumbing drainage.

(3) An inspection conducted by, or under the supervision of, the environmental protection agency or a sanitarian registered under Chapter 4736. of the Revised Code documents that there is ponding of liquid or bleeding of liquid onto the surface of the ground or into surface water and the liquid has a distinct sewage odor, a black or gray coloration, or the presence of organic matter and any of the following:

(a) The presence of sewage effluent identified through a dye test;

(b) The presence of fecal coliform at a level that is equal to or greater than five thousand colonies per one hundred milliliters of liquid as determined in two or more samples of the liquid when five or fewer samples are collected or in more than twenty per cent of the samples when more than five samples of the liquid are collected;

(c) Water samples that exceed one thousand thirty e. coli counts per one hundred milliliters in two or more samples when five or fewer samples are collected or in more than twenty per cent of the samples when more than five samples are collected.

(4) With respect to a discharging system for which an NPDES permit has been issued under Chapter 6111. of the Revised Code and rules adopted under it, the system routinely exceeds the effluent discharge limitations specified in the permit.

(B) With respect to divisions (A)(1) and (2) of this section, a property owner may request a test to be conducted by a board of health to verify that the sewage treatment system is causing a public health nuisance. The property owner is responsible for the costs of the test.

ORC 3701-29-02(C) ...if the system is causing a public health nuisance as provided in section 3718.011 of the Revised Code, repairs are made to the system that eliminate the public health nuisance as determined by the applicable board of health. **Repairs must be completed in accordance with the requirements of this chapter. A board of health may require components, be added or exposed to determine compliance with this chapter.** Nothing in this section prohibits the required upgrade of an existing STS when additional flows are being added or when substantial changes to the structure occur. Additionally, nothing in this section exempts a STS from compliance with the requirements specified in paragraph (E) of rule 3701-29-06 of the Administrative Code.

You contacted this department on 6/10/2021 and advised that the house has been vacant so no one is living in the home and using the septic system. At the time you try to sell the house or someone would want to move into the home, the septic system is required to be replaced. Therefore you are required to notify any potential buyers and real estate agents involved in the future sale of this home that this home is unfit for human habitation and no one may live in this home until the septic system has been inspected and replaced by a licensed and bonded septic installer according to ORC 3701-29. The new buyer of this property will be placed under orders to replace the septic system. Please contact this department with any questions.

Sincerely,

Jennifer Campos, MSA, REHS
