RE: Ohio EPA's Findings and Orders

Dear Mr. Oestreich:

Please find enclosed environmental orders for two township areas of Wood County. They are:

1. Huffman-Kramer Road area in Portage Township
2. Wagoner Place in Lake Township

These orders address public health nuisance(es) that have been determined by Ohio Environmental Agency after various testing.

Neither project is near construction, nor is design work done in the fairly recent orders of the Wagoner Place area. So there is no schedule nor tentative assessments calculated at this time.

Please contact our office should there be questions.

Sincerely,

PREAMBLE

It is agreed by the Parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders ("Orders") are issued to the Northwestern Water and Sewer District ("Respondent"), pursuant the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("R.C.") 6111.03, 6117.34, and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in the composition of Respondent shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in R.C. Chapters 6111, 6117, and 3745, and the rules adopted thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Wagoner Place is an unincorporated community within the triangle of Fremont Pike, Tracy Road and Henry Creek, Lake Township, Wood County, and consists of a restaurant, retail store, four apartment buildings with 16 total units served by a package plant, and approximately 33 residences.

2. Henry Creek is a water of the state.

3. On May 19, 2022, Ohio EPA received a letter from the Wood County Health Department ("Health Department") requesting an investigation of unsanitary conditions in Wagoner Place, pursuant to R.C. 6117.34.

4. The letter included Resolution PRG 01-05-2022 which stated that the Health Department has investigated and documented public health nuisance conditions as defined in R.C. 3718.011 in the community of Wagoner Place caused by the failure of home and semi-public sewage treatment systems and the resulting discharge of partially and/or untreated sewage.

5. Ohio Administrative Code ("Ohio Adm.Code") 3745-1-04(F) provides that all surface waters of the state, to every extent practical and possible as determined by the Director, shall be free from public health nuisances associated with raw or poorly treated sewage.

6. A public health nuisance exists when *E. coli* exceeds 1030 units per 100 ml and odor and visual manifestations of raw or poorly treated sewage are present, as found in two or more sets of samples collected at least two hours apart and within 30 days of each other.

7. Ohio EPA conducted water sampling at Wagoner Place on July 30, 2024, at the following sites and results:

Sampling Site	**Time 07/30/2024**	***E. coli* (cfu / 100ml)**	**Observations**	
			Odor	**Color/Manifestations**
Downstream Tracy Rd	9:27 am	>24,000	Strong	Greyish/sludge deposits, sewage fungus, algae
	12:08 pm	>24,000		
Downstream Wagoner Place	9.:42 am	>24,000	Strong	Greyish/sludge deposits, sewage fungus, algae
	11:52 am	>24,000		
Upstream US 20	N/A	N/A	Strong	Greyish/sewage fungus, algae
	noon	>24,000		

8. The above sampling confirmed the existence of a public health nuisance in Wagoner Place.

9. To address the public health nuisance, it is necessary that sewer improvements or sewage treatment or disposal works be constructed, maintained, and operated to service the unsewered area.

10. Northwestern Water and Sewer District ("NWWSD") is a regional water and sewer district chartered under R.C. Chapter 6119 and is the Designated Management Authority providing water and sewer services in Wood County, including Wagoner Place.

11. A letter was sent on August 12, 2024, in which Ohio EPA informed NWWSD of the existence of the public health nuisance in Wagoner Place and requested a description of the necessary action to abate the nuisance.

12. On August 16, 2024, NWWSD responded with a time frame for providing sewers for Wagoner Place and requested that Ohio EPA begin the process of issuing Orders to construct sanitary sewers in the subject area. NWWSD further stated that Orders are necessary to qualify the area for some grant funding sources.

13. The following Orders do not constitute authorization or approval of the construction of any physical structure or facilities, or the modification of any existing treatment works or sewer system. Any such construction or modification is subject to the permit to install and plan approval requirements of R.C. 6111.44 and 6111.45 and Ohio Adm.Code Chapter 3745-42.

14. The Director has considered and based her determination on evidence relating to the technical feasibility and economic reasonableness of complying with these Orders and to evidence relating to conditions calculated to result from compliance with these Orders, and its relation to the benefits to the people of the state to be derived from such compliance in accomplishing the purposes of R.C. Chapter 6111.

V. ORDERS

The Director hereby issues the following Orders:

1. As soon as possible, but not later than twelve (12) months from the effective date of these Orders, Respondent shall submit to Ohio EPA in accordance with Section X of these Orders, for acceptance, a general plan for the construction and use of sanitary sewers to serve Wagoner Place and any area in proximity

thereto to abate the unsanitary conditions and eliminate the public health nuisance. The general plan shall include, but not limited to, discussions and milestone dates regarding the following:

a. Income survey for funding eligibility,

b. Application for Funding,

c. Securing Funding,

d. I certify this to be a true and accurate copy of the official documents as filed in the records of the Ohio Environmental Protection Agency.

PREAMBLE

It is agreed by the Parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders ("Orders") are issued to the Northwestern Water & Sewer District ("Respondent") pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("ORC") §§ 6111.03 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in the composition of Respondent shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapters 6111 and 3745, and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has made the following findings:

1. Respondent is a water and sewer district established under R.C. Chapter 6119 to provide, among other things, for the collection, treatment and disposal of sewage within unincorporated areas of Wood County, Ohio.

2. On May 23, 2007, Ohio EPA received a letter from the Health Commissioner, Wood County Health District ("Health District"), in which the Wood County Board

of Health declared the following four areas ("Four Unsewered Areas") to be public nuisances and, in the letter, the Commissioner requested, pursuant to ORC § 6117.34, that Ohio EPA investigate the areas for unsanitary conditions.

a. Bays Road and Bradner Road, Montgomery Township;

b. Sugar Ridge Road and Mercer Road, Center Township;

c. Rudolph Road, south of Defiance Pike, Liberty Township; and

d. Huffman Road and Kramer Road, Portage Township.

3. Centralized wastewater treatment facilities are currently unavailable in the four areas identified in Finding No. 2, above. The areas are located within Respondent's service area.

4. Many of the homes in the Four Unsewered Areas are served by inadequate or failing on-site or aeration sewage disposal systems that discharge untreated or partially treated sewage to field tiles and/or roadside ditches. The receiving streams include an unnamed tributary of Toussaint Creek, an unnamed tributary of Cuckle Creek, an unnamed tributary of Middle Branch Portage River, and Hoover Ditch. Toussaint Creek, Cuckle Creek, Middle Branch Portage River, Hoover Ditch, and the unnamed tributaries are defined as "waters of the state" pursuant to ORC § 6111.01.

5. Ohio Administrative Code ("OAC") Rule 3745-1-04(F) provides that all surface waters of the state, to every extent practical and possible as determined by the Director, shall be free from public health nuisances associated with raw or poorly treated sewage.

6. A public health nuisance shall be deemed to exist when an inspection conducted by, or under the supervision of, Ohio EPA or a sanitarian registered under ORC Chapter 4736, documents any or all of the following: odor, color and/or other visual manifestations of raw or poorly treated sewage in waters of the state; and water samples exceed five thousand fecal coliform counts per one hundred milliliters or five hundred seventy-six E. coli counts per one hundred milliliters in two or more samples when five or fewer samples are collected, or in more than twenty per cent of the samples when more than five samples are taken.

7. Pursuant to R.C. § 6117.34, whenever the board of health of a general health district makes a complaint in writing to Ohio EPA that unsanitary conditions exist

in any county, the Director forthwith shall inquire into and investigate the conditions complained of in the complaint.

8. Ohio EPA sampled the Four Unsewered Areas on July 24 and August 8, 2007 for E. coli bacteria. The Huffman Road and Kramer Road area was also sampled on June 30 and July 21, 2009. The sample results for each area for E. coli are set forth below.

9. The Bays Road and Bradner Road area was also sampled previously by Ohio EPA and the sampling results contained high fecal coliform and E. coli values indicative of unsanitary conditions: Fecal coliform too numerous to count on September 24, 1991; Fecal coliform 12,000/100 ml on June 21, 1994; Fecal coliform 28,000/100 ml and E. coli 28,000/100 ml on August 14, 2003; and Fecal coliform 40,000/100 ml and 41,000/100 ml and E. coli 22,000/100 ml and 21,000/100 ml at 9:20 a.m. and 11:30 a.m. respectively on September 16, 2003.

10. The sampling data and subsequent investigation by Ohio EPA confirmed the existence of unsanitary conditions, documented violations of Ohio's general water quality criteria set forth in OAC Rule 3745-1-04, and demonstrated a public health nuisance in accordance with OAC Rule 3745-1-04.

11. On September 13, 2007, Ohio EPA met with Respondent and discussed the Four Unsewered Areas and the need to eliminate the unsanitary conditions.

12. Local soil conditions and local hydrology make the installation of replacement or repair of existing on-site sewage disposal systems an unacceptable solution to remedy the unsanitary conditions.

13. Based on Ohio EPA's investigation, the Director has found that it is necessary for the public health and welfare that sewer improvements and/or sewage treatment or disposal works be constructed, maintained, and operated to service the Four Unsewered Areas.

14. The following Orders do not constitute authorization or approval of the construction of any physical structure or facilities, or the modification of any existing treatment works or sewer system. Any such construction or modification is subject to the permit to install and plan approval requirements of ORC §§ 6111.44 and 6111.45 and OAC Chapter 3745-42.

15. Compliance with ORC Chapter 6111 is not contingent upon the availability or receipt of financial assistance.

16. The Director has given consideration to, and based his determination on, evidence relating to the technical feasibility and economic reasonableness of complying with these Orders and to evidence relating to conditions calculated to result from compliance with these Orders, and its relation to the benefits to the

people of the state to be derived from such compliance in accomplishing the purposes of ORC Chapter 6111.
